CLEAN ENERGY
MINISTERIAL

Accelerating the Global Clean Energy Transition

1

What's CEM about?

2

CEM Initiatives and Campaigns

3

New CEM Secretariat and its Work

A partnership of 24 countries and the European Commission Accelerating clean energy policy and technology deployment

- **Real-world action** --- ensures the high-level political engagement of energy ministers with sustained initiatives and visibility in national energy plans
- **Participation is open to any country** --- CEM initiatives and activities are led by CEM members, enables transfer of policies, practices, and technologies to realize broader and faster lower-cost diffusion and replication among CEM and other countries.
- **Multiple partnerships and collaborations** --- between governments, the private sector, non-governmental organizations, and others

90% High-level energy policymakers connected with technical experts --- to build technical and human capacity, to strategize on game-changing policies and programs, and to implement initiatives that are scalable and sustainable

75% Clean energy investment

75% Global CO₂ emissions

3

New CEM Secretariat and its Work

CEM Secretariat now *hosted* by the IEA

Five long-term positions:

- Head of the Secretariat
- Deputy Head of Secretariat
- Manager of Partnerships
- Manager of Operations and Communications
- Events and Office Co-ordinator

Staffs on loan: China, Mexico, more expected...

Short-term option of interim contracts: task-oriented

CEM 8 on June 6-9 2017, Beijing, China

- Utilize the CEM platform to transition from post-Paris rhetoric to action.
- Drive implementation of clean energy policies to meet NDCs and build capacity to raise ambition further.
- Leverage high-level political engagement of ministers for ambitious, real-world policies and action.
- Partner with global private sector leaders for major commitments and action.

			CEM / MI Public-Private Roundtables						
Evening	Dinner for Ministers and High-Level Guests		Reception for Ministers, RT participants, and special guests						
			Ministers' Dinner						

CCS AND CEM

Clean Energy Ministerial secretariat now *hosted* @ IEA

CCS implicitly part of CEM agenda – but past years little or no activity

IEA is organising a Ministerial side event on CCS on Tuesday 6 June in Beijing, co-hosted by MOST

CCS and CEM continued...

Invitations to several IEA and CEM ministers (and two CEOs) by IEA ED Fatih Birol

Event with two sessions

- “The role and status of CCS”
- “Where do go from here?”

Hope for a statement by attending ministers to bring CCS back to CEM and investigate a way forward

Suggestions are welcomed...

Thank you
