

CSLF Technology Panel

Steve Crookshank
American Petroleum Institute

American Petroleum Institute

- **National trade association for US oil and gas industry**
 - API advocates on behalf of industry
 - API develops standards and conducts research
- **CCS Activities**
 - CO2 Enhanced Oil Recovery White Paper
 - Practices to Prevent or Remediate Casing Pressure
 - Guidelines for Emission Reductions from CCS Projects

CSLF/PIRT Gap Analysis

- 30 Storage gaps; 17 MMV gaps
- Prioritization Necessary
 - What would be nice to know; What we must know
 - Apparent Message to Decision Leaders is “CCS is not ready”
- Other Issues: Proprietary Information
 - e.g. cement/CO₂ interaction
- Report’s Value: “issues are being addressed”

Thank you for your attention!
