

PIRT meeting update

23 April 2018

Andrew Barrett, Australia
PIRT Chair

Main topics of discussion

- Assessment of ENOS project to become a CSLF recognized project
- Discussion on how to measure progress against the Technology Roadmap recommendations
- Discussion on possible Technical Group activities

Progress of TRM recommendations

- Small group formed to discuss – now expanded to 9 PIRT delegates
- Could use expertise and learnings from CSLF recognized projects as input to future TRM
- PIRT has a responsibility to monitor the progress of CCS with respect to recommended priority actions
- Progress against recommendations could inform possible future Task Forces
- Important to note that some recommendations are for the Policy Group
- Outcome: how are we going to achieve the monitoring task?
