

Improving interaction with CSLF- recognized Projects

PIRT Meeting, Al Khobar, Saudi Arabia

Agenda 8

Discussion Points

- How can we increase communication and collaboration between projects?
- How can we improve information exchange between the PIRT and project sponsors?
- How can the CSLF better engage projects?

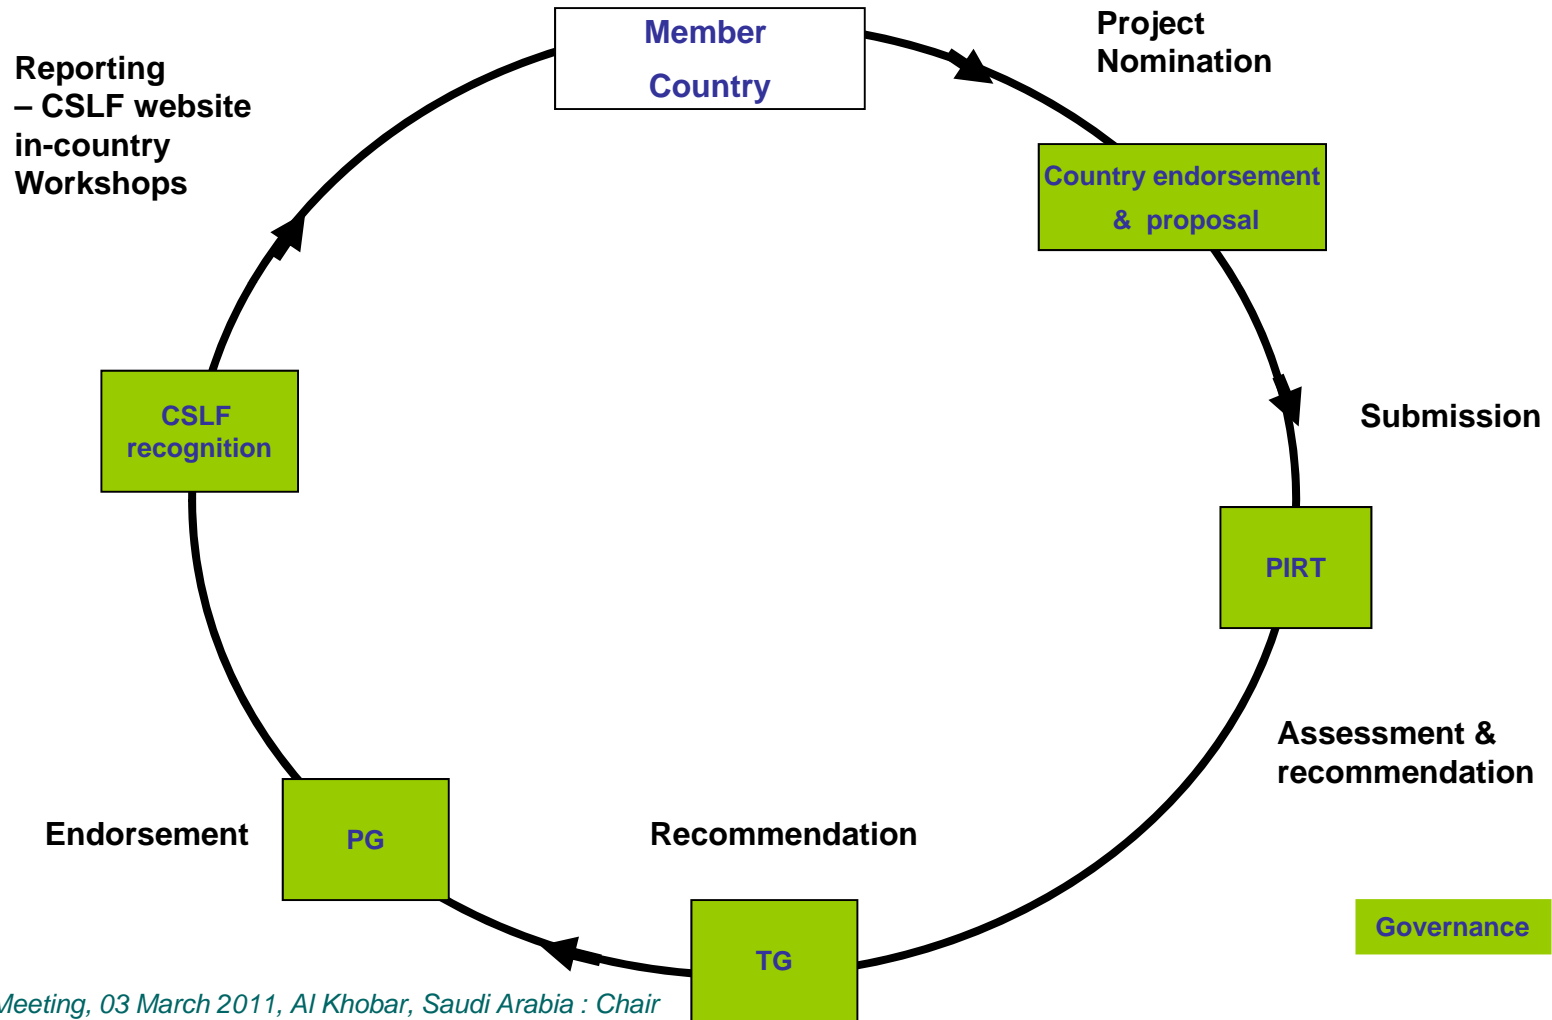

Outcomes of Interaction (CSLF Goals)

- **Inform Projects of progress, new technological advances**
 - Identify potential areas of multilateral collaborations on carbon separation, capture, transport and storage technologies
- **Inform member countries of progress for Ministerial meetings**
 - Foster collaborative research, development, and demonstration (RD&D) projects reflecting Members' priorities
- **Update gaps analysis and identify issues not addressed**
 - Identify key obstacles to achieving improved technological capacity
 - Assess regularly the progress of collaborative R&D projects and make recommendations on the direction of such projects
 - Establish and regularly assess an inventory of the potential areas of needed research;
- **Inform the CCS ready group**

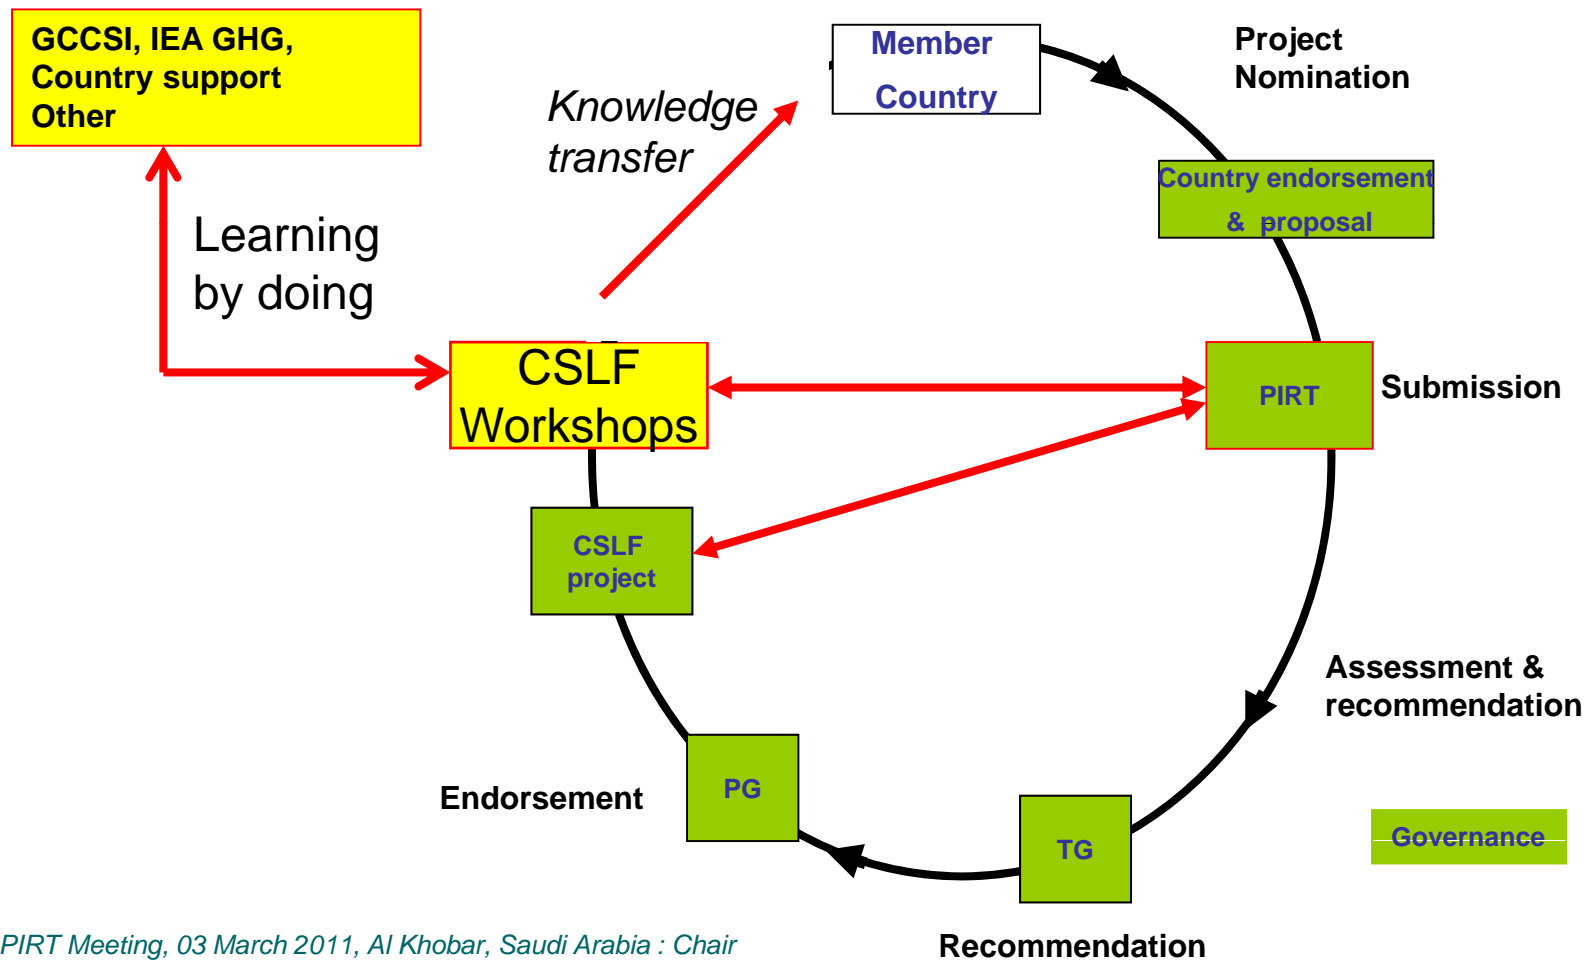

Current Process

CSLF PIRT Meeting, 03 March 2011, Al Khobar, Saudi Arabia : Chair
