

**“Commercial and Financial Structuring of Industrial Scale Projects with CCS,
What Will it Take to Turn Ambition into Reality”**

**20 January 2012,
Société Générale, Paris, La Défense 7, France.**

CCS Financing Roundtable

Paris – January 19, 2012

Summary

- “Lighthouse” projects are having great difficulty achieving financing due to perceived risk.

CCS Financing Roundtable

Paris – January 19, 2012

Summary

- “Lighthouse” projects are having great difficulty achieving financing due to perceived risk.
- **Integration risk seems to be the main concern.**

CCS Financing Roundtable

Paris – January 19, 2012

Summary

- “Lighthouse” projects are having great difficulty achieving financing due to perceived risk.
- Integration risk seems to be the main concern.
- **Simplicity is best for financing plans, but....**

CCS Financing Roundtable

Paris – January 19, 2012

Summary

- “Lighthouse” projects are having great difficulty achieving financing due to perceived risk.
- Integration risk seems to be the main concern.
- Simplicity is best for financing plans, but....
- added project complexity (e.g. polygen production) increases revenue stream and helps alleviate project risk.

CCS Financing Roundtable

Paris – January 19, 2012

Summary

- “Lighthouse” projects are having great difficulty achieving financing due to perceived risk.
- Integration risk seems to be the main concern.
- Simplicity is best for financing plans, but....
- added project complexity (e.g. polygen production) increases revenue stream and helps alleviate project risk.
- **As a result of this risk, no “lighthouse” project can be reasonably expected to go forward without substantial governmental support to close financing gaps.**
