Backup Slides on Country Projects

Report from the CSLF Capacity Building Governing Council

Brazil – 5 total projects

- Total allocation US \$686,450 for 4 projects
 1. Training program in carbon capture applied to mineral coal combustion and gasification process
 2. Training program: CCS in the offshore environment
 3. Knowledge base: Environmental impact assessment and CO₂ monitoring technologies
 4. Workshop on CO₂ storage in Portuguese language countries
- Total allocation AUS \$155,680.20 for 1 project
 5. Carbon capture training series (approved 29 June 2016)

Report from the CSLF Capacity Building Governing Council

China – 5 projects

- Total allocation US \$743,500
 1. Website on CCUS Technologies
 2. Workshop on experience sharing among CCS demonstrations and pilot project
 3. Workshop on legal and regulatory issues for CCS technology development
 4. Exploring CCUS legal and regulatory framework in China (in progress)
 - Stakeholder event held in Beijing in November 2015; Legal and Regulatory Workshop held in Beijing in May 2016
 5. Roadmap on CCUS financing in China (in progress)
 - Various analysis completed; Workshop planned for September 2016

Report from the CSLF Capacity Building Governing Council

Mexico – 4 total projects

- Total allocation US \$144,959 for 2 projects
 1. Introducing CCS into academic programs
 2. Internships on CCS (in progress)
 - Comisión Federal de Electricidad (CFE) representative to be undertaken in 2016 at CO2CRC Project in Australia
- Total allocation AUS \$116,809.76 for 2 projects
 3. Specialized MMV Training Program (approved 29 June 2016)
 4. Specialized Storage Assessment Training for Saline Aquifers (approved 29 June 2016)

Report from the CSLF Capacity Building Governing Council

India – 1 project

- Total allocation US \$250,000
 1. Study tour to train Indian engineering stakeholders via NTPC (on hold)

Report from the CSLF Capacity Building Governing Council

South Africa – 3 projects

- Total allocation US \$166,000 for 2 projects
 1. Conduct workshops and conferences during South Africa's CCS week
 2. Study on impacts of CCS on national priorities beyond climate change
- Total allocation AUS \$77,528.88 for 1 project (actual spent TBD)
 3. Workshop on Sub-Seabed Geologic Storage of Carbon Dioxide (approved 21 January 2016; completed April 2016)

Report from the CSLF Capacity Building Governing Council

United Kingdom – 1 project

- Total allocation AUS \$25,800 (actual spent AUS \$6,552)
 1. International Academic CCS Summit (approved 21 January 2016; completed February 2016)
 - Covered portions of travel for 3 delegates from China, 3 delegates from Mexico, 3 delegates from South Africa
