# Secretariat Report to Technical Group

## Highlights from London Meeting

Four day meeting,  
including  
Workshop on  
“CCS Post-Paris:  
Realising Global  
Ambitions”

Summary report and presentations at:

<https://www.cslforum.org/sites/cslf/meetings/workshops/ccsa-cslf.html>

## Outcomes from London Technical Group Meeting

- The Technical Group will consider the presentation at the June 2015 meeting by the Chairman of the Task Force on CO<sub>2</sub> Storage Efficiency in Deep Saline Aquifers as the task force's final report.

## Outcomes from London Technical Group Meeting

- The Advanced Pore Space Utilisation Task Force will incorporate geo-steering into its activities as a new focal area.
- The Technical Group will re-evaluate possibilities for new task forces at the next meeting.

# Secretariat Report to Technical Group

## Action Items from London Meeting

1. **France**: Determine if it can lead a new task force on Industrial CCS. **Status**: **Pending**.
2. **Secretariat**: Make the summary and presentations from the CSLF Offshore Workshop (of April 2016) available at CSLF website. **Status**: **Completed**.
